# ANNUAL REPORT

## —OF THE—

### SCHOOL BOARD.

---

This, the seventh annual report under the town system, is now submitted for your inspection, with its various statistics.

There has been no change made in the list of text books from that which was adopted when free text books were introduced.

As heretofore, repairs have been made and painting done on the school houses, as circumstances seemed to require. They are now all in a fairly comfortable condition.

Teachers that were employed last year, gave such satisfactory evidence of their ability as teachers, that we have retained them the present year, as far as we were able, though sickness has compelled change in two or three instances.

We think that the schools, as a whole, have been fairly successful.

We also think that if the parents would make their interest in the education of their children more apparent, by more frequent visits to their schools, it would increase the interest and awaken the ambition of the scholar and thus produce better results.

We again recommend that in all cases of dissatisfaction with school management, the School Board be consulted, they are your servants, and willing to be advised.

# ANNUAL REPORT OF THE BOARD OF EDUCATION, UNION DISTRICT.

---

In presenting this annual report of our schools, we take pleasure in being able to say that they have been both successful and profitable. It has been an advantage that the old teachers, whose ability to teach and to govern was known, could be retained. The course of studies has been revised by the Principal, and the work to be required in each room newly laid out. In advancing the grade, one year's work has been added to each division, so that a class has remained in each room one year longer than will be the case hereafter. This is certainly a long step in the right direction, particularly beneficial to those who must receive all their school advantages from the public schools.

During the past year a music teacher has been employed, who has given one lesson a week in four divisions. Under her care, the progress has been excellent. In the lower rooms where the pupils are about the same grade the improvement or advance has been very noticable. The two Grammar divisions have been united, and while some had no knowledge of music, others were well advanced in it, so that it has been more difficult to make the work interesting and profitable to those two classes combined. Good progress has been made, however, and we hope this feature may be retained.

The spring term of school was closed at the end of the eighth week, on account of sickness. This made the winter term two weeks longer than usual.

The amount appropriated for repairs has been expended according to the best judgement of your School Board. New out-buildings were erected, greatly improving the sanitary condition of the premises. The interior of the building was painted throughout, at the beginning of the year. In the summer vacation the First Primary room, which accommodates the greatest number of pupils, was enlarged by taking in the hallway in its rear. This gave room for new seats, to accommodate pupils who had been forced to use settees for seats in the spring term.

In comparing the registers with those of last year, it is apparent that parents have not visited the schools as frequently. The real work of a school can be better judged by watching the every-day routine, than by programmes specially prepared for public exercises, although these are commendable, in their way. Do not base your ideas of the efficiency of your schools entirely upon your children's opinions and reports or upon any second hand reports. Visit the schools yourselves, and know of your own knowledge, what is being done, not for one or two, but for the scholars as a whole.

In concluding we wish to thank those parents and others who have shown their interest in the schools by sending their children regularly, and by their visits, so cooperating with the teachers to secure the best welfare of our schools.

The circulation of the Library for the past twelve months has exceeded 12,000 volumes.

By reason of the acceptance of the provisions of Chapter 8, Public Statutes, by the towns of Tilton and Northfield, at the last annual meetings, each town will receive from the State \$100 worth of books, which will be the property of the towns, but for

convenience will be placed in the present Library building and circulated in the same manner as the other books.

These books have been ordered by the State Library Commissioners and will be here very soon.

The undersigned will be very much aided in making purchases if persons will hand to the Librarian lists of such books as they desire in the Library, and it is earnestly requested that this be done.

Respectfully submitted,

C. C. SAMPSON,	}	TRUSTEES.
